

Chelmsford Teaching Schools Alliance

NQT and New to Y2 - Preparing for KS1 Tests and Teacher Assessments

About the Session:

This session will be delivered by Jane Downes from Juniper Education.

This course is intended for Year 2 teachers, including NQTs, who are new to administering or coordinating end of Key Stage 1 assessments. Some more experienced teachers may also feel that it is important to update their knowledge and understanding.

The course will provide opportunities to become familiar with the current statutory regulations in relation to end of Key Stage 1 assessments and discuss related issues. In particular schools need to ensure they are aware of national criteria and standards when making level judgements. Therefore the course will also include opportunities to discuss and moderate nationally agreed samples of children's work.

Please note: Delegates should bring their copies of the latest KS1 Assessment and Reporting Arrangements Handbook

"I really feel better equipped to do my job well" (NQT)
