

Chelmsford Teaching Schools Alliance

Phonics for KS2 Teachers

Delivered by – Jonathan Bond, Independent Consultant

Course Objectives

- To understand the phonic system and the terminology involved.
- To understand the role of phonics in the KS2 curriculum.
- To know how to support pupils with their phonics in KS2.

With Ofsted's current focus on phonics and supporting it with lower attainers further up the primary school, this one-day course will explain phonics 'from scratch', its role in KS2 and practical methods to support it with struggling readers **and** spellers.

We know that there are children in KS2 with gaps in their phonic knowledge. The longer this persists the harder it becomes to bridge the gap which will mean children may struggle to access the wider curriculum. This session will help you to bridge that gap and is especially designed for KS2 teachers who have not taught phonics for a while or who lack confidence in this key area. Phonological awareness, phonics, terminology and basic procedures will all be explained and teachers will leave with a full understanding of phonics and a knowledge of how they can incorporate it into their daily practice.
